## The coolest satellite event during IBC 2013 !

Join the European satellite professional community and come to the EUsatcom Innovation Awards 2013 in the EYE Film Institute in Amsterdam on IBC Monday evening September 16<sup>th</sup> 2013 from 18.00 – 23.00 hour

At the event satellite professionals, IP and broadcasting specialists and a selection of the most innovative satellite communication teams in Europe come together and meet in a relaxed non-competitive atmosphere to enjoy the hospitality at the EYE film institute and freely discuss the latest satellite solutions. It is an excellent opportunity for you and your guests to network in the dynamic European satcom industry.

So after another busy IBC day: invite your customers, guests or partners to come along to relax along the IJ, mingle with satellite professionals and their tech partners, enjoy dinner, learn about the latest in satcom and vote for the most innovative satcom solution in Europe.

## From the EYE Film Institute in Amsterdam

The Awards will take place at the border of the IJ in Amsterdam at the ground (water!) level in the iconic EYE building, and in between a number of amazing video and film installations.

## EUsatcom Innovation Awards 2013 Entry List

The Awards recognize the fact that the satellite industry has entered a new IP-based era that requires new ways of co-creation to meet customers' demands and has a special focus on multi-disciplinary teamwork that is involved with satellite based, IP connectivity, Video and M2M solutions to help customers meet their technical or commercial challenges.

The entrants for the EUsatcom Innovation Awards 2013 are:

- \* SmartLNB (Eutelsat team)
- \* Wi-Fi and Multimedia Services in a High Speed Train Landscape (Hispasat team)
- \* Management platform for L-band satellite terminals (Galaxy1, Pragmalogic team)
- \* The Story of Enhancing a great standard: What's Next After DVB-S2? (Newtec team)
- \* Carrier ID Technology (iRG team)

The winner will be determined by an online/onsite voting round.

## /LIVE in the media !

As visitor you can mingle with satellite professionals, but also with members of the satellite press we have invited, and enjoy the online media facilities in the EYE.

From our /LIVE internet studio at the EYE we will stream the whole event and interviews with Award entries, visitors, sponsors and guests live to the web via EUsatcom.tv and a number of global satcom magazine websites while promoting the live stream via our #eusatcom social media channels.

Launch event
